DETAILED ACTION

1. This office action is responsive to BPAI decision, filed 7 July 2010, and Response to Ex Parte Quayle, filed 17 September 2010, to the Original Application, filed 19 March 1999.
2. Claims 1, 3, 10, and 19-28, renumbered as claims 1-13, respectively, are now allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

Interpreting the claim in light of the specification, Examiner finds the claimed invention is patentably distinct from the prior art of record.

The prior art does not expressly teach or render obvious the invention as recited in independent claims 1, 19, 20, 21, and 26, renumbered as claims 1, 4, 5, 6, and 11, respectively.

The distinguishing features as recited in independent claims 1, 19, 20, 21, and 26, renumbered as claims 1, 4, 5, 6, and 11, respectively, include:

"characterized by storing a duplicate set of all of the claims in the computer program, and creating the description by retrieving the duplicate set of claims under the heading "DESCRIPTION OF THE PREFERRED EMBODIMENT", searching for each occurrence of the word "said" in the duplicate set of claims copied into the specification, programming the computer program to replace the word "said" with the word "the" in the duplicate set of claims copied into the specification, and editing the duplicate set of claims copied into the specification into grammatically correct sentence structure including adding verbs, and assigning reference numerals for the first time by the steps of storing successive numbers beginning with a number above the highest Figure number to identify the respective element names, and searching for each occurrence of each respective element name in the order of occurrence in the duplicate set of claims, replacing each respective element name with that respective element name followed by successive ones of said numbers to

provide identifying reference numerals for the element names in the order of occurrence in the duplicate set of claims and automatically shifting the reference numerals in response to changing the order of occurrence in the duplicate set of claims."

The Examiner asserts that the claim overcomes the prior art of record *when the limitations are read in combination with the respective claimed limitations in their entirety.*

The dependent claims are allowed as they depend upon allowable independent claims.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laurie Ries whose telephone number is (571) 272-4095. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Doug Hutton, can be reached at (571) 272-4137.
